VEGETABLE GROWER'S GUIDE

	Seed required for 50 ft. of row	Distance between rows (inches)	Distance apart in row (inches)	Depth of planting (inches)	SPECIAL NOTES
Asparagus...	½ oz.	14 to 24	3 to 6	1	Mulch to prevent heaving of roots in winter.
Beans, Bush.	½ lb.	24 to 30	2 to 3	1½ to 2	Early planting can be followed by fall vegetables.
Beans, Lima.	½ lb.	24 to 36	3 to 6	1½ to 2	Cultivate as for Bush Beans above.
Beans, Pole.	½ lb.	36 to 48	6 to 8	1½ to 2	Plant 6 seeds per pole and later thin to three.
Beets.....	½ oz.	14 to 24	3 to 4	½ to 1	Use turnip varieties for late planting.
Cabbage.....	¼ oz.	18 to 36	14 to 24	½	Hoe deeply and often—keep clean of weeds.
Carrots.....	¼ oz.	16 to 24	1 to 3	½	Sow short rows often.
Cauliflower..	¼ oz.	24 to 30	20 to 24	½	Never allow growth to become checked.
Celery.....	⅛ oz.	24 to 40	4 to 6	¼	Needs plenty of water.
Collards.....	¼ oz.	24 to 30	14 to 18	½	Stands hot weather better than cabbage or kale.
Corn, Pop...	3 oz.	34 to 40	6 to 8	1	Sow at same time as first sweet corn.
Corn, Sweet.	4 oz.	30 to 42	9 to 12	1	Deep soil, frequent cultivation, makes best crop.
Cucumbers...	½ oz.	48 to 60	12 to 36	½ to ¾	When picking, cut stems; do not pull vines.
Egg Plant...	⅛ oz.	24 to 36	18 to 24	½	Needs lots of heat and frequent hoeing.
Endive.....	½ oz.	18 to 24	8 to 12	½	To bleach, tie plants into cone shape.
Kale.....	½ oz.	24 to 32	14 to 22	½	Sow during July for Fall use.
Kohlrabi....	¼ oz.	14 to 24	4 to 6	½	Quite hardy.
Lettuce.....	¼ oz.	12 to 18	4 to 12	¼	Should be thinned out to stand a foot apart.
Muskmelon..	½ oz.	70 to 80	36 to 60	¾	Plant in hills, 10 to 12 seed, thin to 4 plants.
Mustard.....	¼ oz.	14 to 24	6 to 9	½	Can be grown in window boxes in Spring.
Onion.....	¼ oz.	18 to 24	3 to 4	¾	Onions grown from seed keep best.
Onion (for sets).....		12 to 14	Not Thinned	¾	Till top soil frequently; keep free of weeds.
Parsnips....	½ oz.	18 to 24	3 to 4	½	Better flavored if subjected to early frosts.
Parsley.....	¼ oz.	12 to 20	6 to 8	½	Seed germinate very slowly.
Peas.....	¾ lb.	24 to 36	1 to 2	1 to 2	Does best in cool weather, so plant early.
Peppers.....	⅛ oz.	20 to 30	18 to 20	½	Need lots of heat and frequent cultivation.
Pumpkin....	2 oz.	96 to 110	60 to 84	¾	When storing, prevent bruising.
Radish.....	½ oz.	12 to 18	1 to 2	½	For Fall use; long, white varieties.
Spinach.....	¾ oz.	14 to 18	3 to 5	¾	Plant short rows often.
Squash, Bush	1 oz.	42 to 48	42 to 48	1	For extra crop, sow in paper pots indoors.
Tomato.....		40 to 60	36 to 40	½	For best results train to stakes or trellis.
Turnip.....	½ oz.	12 to 20	2 to 4	½	Crowding or weeds make poorly-flavored roots.

SERVALL-STAZDRY

The New Type SANITARY LITTER

For Poultry, Cattle, Horses and Pets

**Protects Baby Chicks Against
DAMPNESS and COCCIDIOSIS**

Servall-Stazdry safeguards against dampness in the brooder house and is an important aid in preventing and controlling coccidiosis. Its light color makes it easy to detect any irregularities in the color of the droppings.

In preparing the brooder house for baby chicks, the floor should be covered with the litter to a depth of not more than 1" to 1½". The depth will increase with use. Cloth bags or paper should be placed over the litter for the first few days. By daily stirring Servall-Stazdry with a fork, you hasten evaporation, helping to keep the litter dry which is one of the best safeguards against coccidiosis. Properly used, Servall-Stazdry will last from 4 to 12 weeks depending upon the number of chicks, weather, laxative effect of feed, heat and ventilation.

Bale \$2.35, f. o. b. Paducah.

Bean Beetle

Rotenone application is recognized generally as an effective control for many insect infestations. CCC contains no Paris Green, Lead or Calcium Arsenates. Contains no coarse particles. Economical. Sticks to foliage. Effective.

Apply with any dust gun under and top of leaves when leaves are moist if possible. Cover all infested portions of plants. Repeat when necessary to kill newly-hatched insects. A little will go a long way. Be sure and use as directed. As a spray mix 1 lb per 4 gals. water. Keep agitated. 1 lb. 35c, 5 lbs \$1.25. Postage Extra.

For Extra Early Crops Use

Hotkaps

TOBACCO SEED

BURLEY KY. 16

Ky. 16 is the standard comparison for all burley tobaccos. It is highly resistant to Black-Root Rot. It is of the Stand-Up type and is easily cultivated. Ky. 16 grows vigorously and compared to the common susceptible varieties it yields from 20% to 25% more on disease-free soil.

On soil infected with Black Root-Rot Burley Ky. 16 will make high yields where other varieties susceptible to the disease fail completely. Ky. 16 has a large stalk, a very extensive root system and stands up well. It is a variety that will take a lot of punishment from weather and the grower.

The potential yield of Ky. 16 is high. Yields of 2,000 lbs. per acre and more are common. The quality is high comparing favorably with most of the common varieties. Considering yield and quality Ky. 16 has a place on most farms growing burley tobacco.

½ Oz. 75c Postage Paid

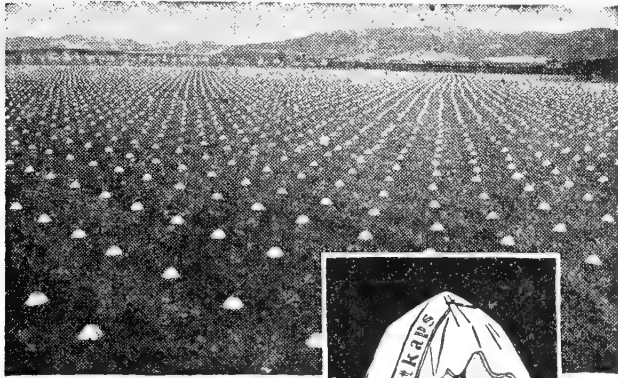

BURLEY KY. 41-A

Ky. 41-A is a high-yielding Semi-Stand-Up Burley resistant to Black Root-Rot. It is adapted to a wide range of soil types and growing conditions. It is rather dark green in color when growing but is a golden yellow color when ripe. It is truly a genuine smoker-type burley. It develops few suckers, grows uniformly and produces a large number of leaves. It also has a medium size stalk which is desirable at curing time.

Ky. 41-A cures well. Farmers who are not entirely satisfied with the yield and quality of their present variety will profit by growing Ky. 41-A. They will be assured of high quality leaf and will not risk loss in pounds from Black Root-Rot.

The fact that in dry seasons Ky. 41-A fires less at the bottom than other varieties is increasing its popularity.

½ Oz. 75c Postage Paid

Earlier To Market For Higher Prices

GERMACO HOTKAPS. "Individual hot-houses for every plant—are made of waxed paper in the form of a cone which completely covers the plant—the only way to fully protect them from frost. HOTKAPS also protect against rain, wind, ground-crusting and insects—your assurance of faster growing, hardier plants, with larger yields and greater profits, because you market earlier."

Prices and shipping weights are given below **HOTKAPS** come in rolls of 1,000 for ordinary use, and in special trial or garden packages. For rapid placing, use the steel **HOTKAP** setter.

***“I Would Never
Try to Feed
Cattle
Without It”***

—says Perry Workley

Perry Workley of Blanca, Colo., has been feeding beef cattle for 20 years. He's famous as a feeder and a showman. And he thinks Calf Manna is really great. "There's a vitalizing something about it that works wonders with calves," says he. And there are hundreds of others, small farmers, big ranchers, feeders of rabbits, goats, hogs, sheep, horses, cattle, etc., who agree. We sell Calf Manna and we recommend it

HYBRID SEED CORN KENTUCKY GROWN

YELLOW HYBRIDS

U. S.-13 (WF9 X 38-11) X (Hy x L317)

The earliest hybrid recommended for Kentucky and most popular variety. Low, strong stalk, excellent root.

KY. 103 (WF9 X 38-11) (K4 x L317)

Somewhat taller and later than U. S. 13 but not so late or tall as Ky. 102, Very dependable under all conditions and rapidly becoming one of most popular hybrids in the state.

WHITE HYBRID

KY. 203 (27 X 133) (33-16 x 49)

A new white hybrid, moderately early. Produces a good-sized ear. Adapted over wide area.

Prices for all varieties F. O. B. Paducah:

Gallon	\$1.25	1/2 Bushel	\$4.25
Peck	\$2.25	Bushel	\$8.00

These prices apply to regular flat grain. Write for prices on Round Grains.

YOPP'S CHIEF BRAND LAWN GRASSES

CHIEF BRAND MIXTURE. We use only the best tested grass seeds, both in purity and germination test, in this mixture; a lasting, smooth, velvet, green yard. **Lb. 50c, 5 lbs. \$2.50. Postage Extra.**

BLUE GRASS. (21-lb. Test). Kentucky Blue Grass is the highest quality money can buy. Blue Grass is used more for lawns than any other grass. Will grow in most any well-drained soil

but is more adaptable to lime-stone soil. **Lb. 65c, 5 bs. \$3.00. Postage Extra.**

RYE GRASS FOR LAWNS. For Lawns, sow in September, October, 1 pound to 10x10 feet. Can be sown on top of Bermuda Grass. **1 Lb. 20c, 5 lbs. 15c per lb. Postage Extra.**

WHITE DUTCH CLOVER. Excellent for lawns when mixed with other grasses. **Lb. \$1.25. Postage Extra.**
